<i>Lech BUKOWSKI</i> Preface	5
<i>Tomasz AMBROZIAK, Konrad LEWCZUK</i> A method for scheduling the goods receiving process in warehouse facilities	7
<i>Tomasz AMBROZIAK, Dariusz PYZA</i> Selected aspects of transportation system modelling	15
<i>Paweł HANCZAR</i> Transport planning in conditions of different transport tariffs – application of integer programming	25
<i>Marianna JACYNA, Krystian WIŚNIEWSKI</i> A static model for selecting technical facilities of a logistics centre based on the tasks to be performed	33
<i>Tomasz JANIK, Piotr ŁEBKOWSKI</i> Rescheduling of arrivals and departures at multi-runway airports	43
<i>Barbara JÓŹWIAK, Józef OKULEWICZ, Barbara WĘGRZYNOWICZ</i> Programming of controlling of a conveyor transport system	57
<i>Marcin KLIMEK, Piotr ŁEBKOWSKI</i> Predictive scheduling with determined terms of milestone achievement	69
<i>Antoni KORCYL</i> Optimisation of facility location – heuristics approach	81
<i>Stanisław KRAWCZYK</i> Supply strategy development in production enterprises	89
<i>Marek MAGIERA</i> Two-level of production scheduling for flow-shop systems with intermediate storages	101
<i>Barbara MAŻBIC-KULMA, Jan W. OWSIŃSKI, Krzysztof SĘP</i> Application of selected methods of graph theory and combinatorial heuristics to minimising the number of transits nodes in an air network	111
<i>Tomasz NOWAKOWSKI</i> Problems of supply process reliability assessment at small and medium-sized enterprises	125
<i>Józef OKULEWICZ, Tadeusz SALAMONOWICZ</i> Preventive maintenance of technical systems as part of risk management	137
