

Contents

Summaries.....	7
Streszczenia.....	19
<i>Wacław Andrusikiewicz</i>	
Inter-chamber Pillars in Polish Salt Mining — Chosen Dimensioning Methods in Theory and Practice.....	33
<i>Andrzej Batog, Maciej Hawrysz</i>	
Consideration of the Rigidity of Structure in the Calculation of Settlement of the Foundation According to Eurocode 7	49
<i>Przemysław Bukowski, Mirosława Bukowska</i>	
Changes of Some of the Mechanical Properties of Rocks and Rock Mass in Conditions of Mining Exploitation and Mine Workings Flooding	57
<i>Marek Cała, Jerzy Flisiak, Justyna Adamczyk, Malwina Kolano, Michał Kowalski, Agnieszka Stopkowicz</i>	
The Analysis of the Slope Stability in a Basalt Strip Mine by Means of the Back Analysis Method to Determine Strength Parameters.....	69
<i>Mariusz Cholewa</i>	
Analysis of the Stability of the Slope of the Hydraulic Embankment Made of the Ash-slag Mixture	81
<i>Wojciech Chudzik</i>	
The Process of Mined Land Reclamation in Natural Aggregate Quarries Exemplified by the Sand and Gravel Quarry Dębina Łętowska.....	89
<i>Bartłomiej Czado, Jan S. Pietras</i>	
Comparison of the Cone Penetration Resistance Obtained in Static and Dynamic Field Tests	97

<i>Kajetan d'Obyrn, Wiesław Wiewiórka</i> Selection of Backfilling Technology Works in the Ksawer Chambers Complex of the Wieliczka Salt Mine.....	107
<i>Jan Drzewiecki</i> The Basic Technological Conditions of Underground Coal Gasification (UCG).....	117
<i>Józef Dubiński, Grzegorz Mutke</i> Application of PPV Method for the Assessment of Stability Hazard of Underground Excavations Subjected to Rock Mass Tremors	125
<i>Joanna Dulińska</i> Application of Response Spectrum Method for Dynamic Analysis of Spatial Earth Structures	133
<i>Lidia Fedorowicz, Jan Fedorowicz</i> Safety Assessment of Linear Structures in Areas at Risk of Large Mining Deformities.....	145
<i>Lidia Fedorowicz, Marta Kadela</i> Model Calibration of Line Construction–subsoil Assisted by Experimental Research.....	155
<i>Lucyna Florkowska, Jan Walaszczyk, Agnieszka Maj</i> Determining Mechanical Properties and Material Models of Subsoil for Buildings in Mining Areas.....	165
<i>Grzegorz Galiniak, Andrzej Bik</i> The Reclamation of Post-mining Areas of Lubuski Region (Poland) on Example of Sieniawa Lignite Mine.....	179
<i>Krzysztof Gasidło, Barbara Stankiewicz, Zbigniew Sęsiadek</i> Concept of Redevelopment the Inundations in the Szotkówka River Valley in Mszana and Jastrzębie-Zdrój Local Communities	189
<i>Janusz P. Kogut, Jakub Zięba</i> Numerical Modeling of Response of the Ancient Pottery Kiln from Marea (Egypt) Due to the Soil Loading	203

<i>Miloslav Kopecký, Martin Ondrášik, Darina Antolová</i> Atlas of Landslides in Slovakia	211
<i>Tadeusz Majcherczyk, Zbigniew Niedbalski, Katarzyna Kryzia</i> Changes to the Range of Exploitation Impact when Mining the Next Coal Deposit on the Basis of Geodetic Measurements.....	219
<i>Piotr Małkowski, Paweł Kamiński, Krzysztof Skrzypkowski</i> Impact of Heating of Carboniferous Rocks on Their Mechanical Parameters.....	231
<i>Piotr Małkowski, Tadeusz Majcherczyk, Zbigniew Niedbalski</i> Multi-criterion Analysis of Factors Affecting Maintenance of Roadways	243
<i>Mariusz Młynarczuk, Łukasz Mazurkiewicz</i> Description of the Fracture Path by Computer Image Analysis	253
<i>Krzysztof Oleszko, Mariusz Młynarczuk</i> Application of Computer Image Analysis to Imaging and Analysis of the Grains in 3D Space	261
<i>Elżbieta Pietrzyk-Sokulska</i> Geological Environment as an Important Element of the Reclamation and Revitalization of the Quarries.....	267
<i>Joanna Pinińska, Andrzej Domonik</i> Rock Mining Industry in History. Geosites and Geological and Engineering Assessment Thereof.....	275
<i>Stanisław Prusek, Wojciech Masny, Marek Rotkegel, Krzysztof Skrzyński</i> Optimizing a Support of a Face-roadway Junction Located under Goafs	283
<i>Anna Szewczyk</i> Sowliny — the Center of the Petroleum Industry at the Very West End of the Carpathian-Galician Petroleum Route. Current Condition, Problems with Revitalization.....	295
<i>Jan Walaszczyk, Dariusz Wiewiórka</i> Modelling the Impact of Active Fault on Excavation Chambers in the Conditions of Legnica-Glogow Copper Area	307

<i>Daniel Wałach, Piotr Dybel, Kacper Oziomek</i> Non-invasive Tests of High Performance Concretes in the Context of Their Application in Underground Construction Industry.....	315
<i>Daniel Wałach, Andrzej Szumiński, Piotr Dybel</i> The Influence of Specimens Size on the Deformational Properties of High-Performance Concretes	327
<i>Agnieszka Zaborska-Jagiello</i> The State Coal Mine Jawiszowice in Brzeszcze. The History, Present State, Architecture, Vision of Revitalisation with the Participation of Creative Industries	337
