

Contents

Streszczenia	7
Summaries	9
Piotr Bania	
Does the predictive control require an exact optimization?	11
Jerzy Baranowski	
Observer design for series DC motor	33
Mariusz Pauluk	
Fuzzy controller as the example of the robust algorithm	53
Adam Ślusarczyk	
Control and synthesis of the time-optimal linear oscillation systems of the second order	73
Ewelina Zalot	
Criteria for the stability of the convex combination of polynomials	87
Reports	97
Style Sheet	101
